SEMEN: \$26 - CERTIFICATES: \$40
Volume Discount Eligible

- Hoover Dam has now anchored his position in history as one of the top bulls of his time with the hard to find combination of calving ease, muscle, carcass, docility, and phenomenal daughters. Over 10,000 progeny have been recorded through AHIR in over 1,100 herds.
- Cattlemen have realized the tremendous value of Hoover Dam daughters for their exceptional udder structure with optimum levels of milk, their calm dispositions, their moderate mature size and fleshing ability. Hair coats are slick, which is ideal for fescue tolerance and southern climates.
- After repeated success in the purebred industry, Hoover Dam has seen a surge in large heifer AI projects, due to his predictability in calving ease and calf crop uniformity. Progeny offer structural correctness and added thickness.
- *Factoring in his high Docility and light Birth Weight, HOOVER DAM is the only highly proven sire over +1.00 for Ribeye EPD!*
