**SEMEN \$25 CERTIFICATES \$40**

- ★ Now with three calf crops under his belt and daughters that have weaned their first calves, Entice has truly done a phenomenal job! Twenty-seven Entice daughters in 7 herds have an average 103 WR on their progeny! They are milky females that can still hold onto their body condition during lactation.
- ★ Entice impressed visitors on the 2021 South Dakota Angus Tour for his correct skeleton, length of body, depth of rib and massive type. Many sons in our February 1, 2022 auction display this same thickness, power, and depth of body.
- ★ Entice has a powerful set of EPDs backed by progeny that phenotypically match the EPDs. Entice is getting a fair bit of data on the traits with historically low submission rates such as Heifer Pregnancy, Docility, Claw, Angle, and actual kill data. This has propelled his \$C to the very upper percentiles of current sires. Although he isn't a sire with tons of top 1% EPDs, his EPDs are realistic, reliable, and sound!
- ★ We appreciate the Entice cattle for their high growth with excellent thickness, added length of body, style, and a commanding presence! Sons are big scrotal bulls with a tight sheath. We have noticed there were bulls that would "fill the chute" width-wise while taking hip height measurements on our yearling bulls. Almost every single time we noticed this, the bull was sired by Entice. They are correct in their skeletal makeup and foot shape. Entice has a big foot with excellent claw shape and depth of heel. We see this transmitted through to his progeny.
- ★ One of the best traits about the Entice cattle is their disposition – his Docility EPD is spot on. Good disposition is one of the hallmark traits of Hoover Angus cattle, and a large percentage of our repeat business is because this trait has been important in our herd for so many generations.
- ★ In his third year of calves at Hoover Angus, Entice calves are still at the top of the crop. The top two weaning weight bulls of our 2021 crop were both sired by Entice. Entice progeny have been very well accepted at auction. Twenty-six yearling Entice sons in our

 Sells February 1, 2022

2020 auction averaged \$8546, nearly \$2400 over the entire bull sale average! Entice continues to be one of the top-selling Angus bulls at Select Sires.

- ★ Entice was the \$42,000 top-selling bull in the 2018 Mogck & Sons sale, where the sire group of Enhance sons made a tremendous showing, leading off the sale catalog and producing the top two selling bulls.
- ★ Entice's dam has earned Pathfinder honors and records 5-107 WR, 4-104 YR, 4-104 IMF ratio, 4-105 ribeye ratio, 4-81 rib fat ratio, and 4-87 rump fat ratio. She produced a full brother to Entice selling for \$11,000, and her four sons have averaged an 814 pound weaning weight.
- ★ Entice had a very solid set of performance data: BW 77 lbs., WW 886 lbs., WR 116 among 216 contemporaries, YW 1544 lbs., YR 114, IMF 4.94, ratio 118, ribeye 17.0", ratio 114.
- ★ Entice is an excellent pen breeder and a high libido bull during natural service.
- ★ Sire Enhance has been a high-volume semen producer at ORigen, and was the #1 bull in the breed for registrations in 2020 and 2021.

**SEMEN \$30 CERTIFICATES \$20**

- ★ Elite is a massive, structurally sound, easy-going bull! He offers a larger frame, exceptional length of body, width of base, and large scrotal. His feet are as true and ideal as can be found in the breed today!
- ★ Elite was Landi's favorite bull of the 2021 Hoover sale, and has been used back in the Hoover herd. With three consecutive generations of Pathfinder cows that have all served as working donors for Hoover Angus, a stronger cow family cannot be found!
- ★ Elite's +36 Docility EPD is spot on, and there are less than 100 non-parent bulls nation-wide with his level of Docility EPD and accuracy!
- ★ Elite was born at 83 pounds, WW 768 lbs., WR 109, YW 1485 lbs., YR 117.
- ★ Dam R217 is one of our favorites, and of course from the highly productive and successful Erica cow family. She is a Pathfinder working donor with a 353 day calving interval and a superior progeny record of 4-97 BWR, 4-105 WR, and 3-106 YR.
- ★ Pathfinder donor grandam N54 is Landi's favorite daughter of

**Erica of Ellston N54**  
Grandam of Elite  
Pathfinder Hoover Donor

**Erica of Ellston G366**  
Great Grandam of Elite  
Pathfinder Hoover Donor

- G366. N54's 2020 calf was the 11<sup>th</sup> top weaning weight heifer of her crop. N54 records 6-93 BWR, 6-106 WR, and 4-105 YR with a 355 day calving interval which includes stealing flushes three different years! Fertility in this cow family is truly exceptional.
- ★ N54's first two daughters serve as working Hoover Angus donors, and her next daughter, V30, was the 2<sup>nd</sup> top IMF heifer of her crop and serves as a donor for the McFarland and McIntosh families in Ohio.
  - ★ N54 has good mothering skills (this clearly runs in this Erica cow family), and a beautiful udder. N54 is a phenotypic standout, is square made, and an ideal Angus female!
  - ★ Great grandam G366 is undoubtedly the most influential cow in recent Hoover history. She earned her place in the history books not by flashy genomics and unrealistic EPDs, but by progeny that performed and excelled in the real world, in a multitude of different environments for many cattlemen in different states. Numerous calves of G366 were at the very top of their crop for weaning weight, and went on to make great cattle from there. The torch has been passed to her daughters and granddaughters, and we find them bringing in some of the very best calves of each crop. At least 15 daughter descendants of the great G366 cow have served as working donors – and we generally don't make cows into donors until they have a proven progeny record.
  - ★ G366 has three Pathfinder daughters – two in the Hoover herd, and one owned by JJ Scheckel – this female was purchased as an embryo at the National Western from us. Currently in the Hoover cow herd, the 2<sup>nd</sup> top indexing cow is a direct G366 daughter (and full sister to N54). The 3<sup>rd</sup> top indexing cow in the herd is R96, a G366 granddaughter. Two other direct daughters of G366 also are part of the top 15 indexing cows of the herd. It doesn't get any better than this!
  - ★ If you are looking for a bull with a little more frame, power, and growth backed by a tremendous cow family, put Elite on your list! He comes highly recommended!
  - ★ Owned with Crawford Angus, Adair, IA and High Point Genetics, Osceola, IA.

**SEMEN \$35 CERTIFICATES \$45**

- ★ Victorious was the 5<sup>th</sup> top weaning weight bull of his crop, and better yet, he started out at a light 70 pounds! He has been used on both heifers and cows at Hoover Angus. Indicative of his multi-trait excellence, Victorious fares well for \$M, \$B, and \$C.
- ★ Dam N170 is sure a light birth weight cow whose calves get right up and grow quickly. She records 6-93 BWR, 6-104 WR, and 4-106 YR. N170 is a strong carcass cow with 4-118 IMF ratio and 4-102 ribeye ratio! She has an ideal 363 day calving interval.
- ★ Pathfinder great grandam J42 is an excellent cow with a picture-perfect udder and 8-107 WR. She is one of the most beautiful cows in the herd! Three sons averaged \$7425. She has a 360 day calving interval.
- ★ The first three cows "off the pedigree" on Victorious' dam's side have all earned Pathfinder status, making it four *consecutive* generations of Pathfinders starting with J42! An incredibly rare find!
- ★ Owned with Grimmus Cattle Co., Oakdale, CA.

**SEMEN \$100 CERTIFICATES \$35**

★ Hoover No Doubt was the \$67,500 top-selling bull in our 2015 auction, and became the top-selling bull in our 94-year history at Hoover Angus! Very limited semen on this now-deceased sire is available through Alta Genetics.

★ No Doubt's progeny have met the market's demands for width of base, superior feet, and sound skeletons with real-life true performance that is not just genomic-based. No Doubt consistently transmits style and eye appeal with an uncommon amount of meat and muscle. When No Doubt cattle are in a group, it's hard to look past them! This past year's sale reports from highly respected breeders across the country have been filled with No Doubt sons and daughters in high demand.

★ Our most recent No Doubt sale topper was selling the pick of the No Doubt flush sisters from the Erica cow family in our fall 2021 mini online sale. This pick garnered \$36,500 for a 9 month-old heifer calf. Repeat buyers were the winning bidder and contending bidder on this pick.

★ In our spring 2021 sale, a No Doubt grandson, Hoover Perception, topped the sale at \$30,000 to Grimmus Cattle Co. A No Doubt son, Hoover Notary, topped our 2019 sale at \$39,000, and a No Doubt son was the 2nd top-selling bull of our 2018 sale. Three of the top 5 selling bulls in our 2019 sale, all over \$25,000, were sired by No Doubt.

★ Backed by Bullseye and CC&7 – two of the highest proven bulls for Docility in the history of Docility EPD – the No Doubt progeny are unquestionably breed leaders for this important trait! Among sires across the nation with his accuracy or greater, only 10 have a Docility EPD greater than No Doubt, one of which is his sire!

★ Daughters in production offer a notch more frame and superior udder shape, attachment, and teat size. They are calm females to work with and average a 100 WR on their progeny.

★ No Doubt was a hunk that turned in an adjusted 1540 pound yearling weight, ratio 113 to be the #1 adjusted yearling weight bull in our sale! He also scanned a 3.91 IMF, ratio 108, and tied as the top scanning ribeye bull (among 81 yearlings) with a 17.3" ribeye, ratio 114!

★ Donor dam J2 is a 10th generation Hoover Angus bred, born, and raised Blackcap Ellston female! She was the lead-off, \$20,000 top-selling open heifer from our 2011 auction selling to KDS Angus. Now owned by Bullseye Angus, 7 Oaks Angus, Reverse Rocking R Ranch, and GMC Genetics, J2 hit her financial stride eight years of age, generating nearly a quarter million dollars of revenue in a 12 month period for her new owners!

★ In 2021, at 11 years of age, J2 produced the \$158,000 top-selling bull of all breeds at the 2021 Midland Bull Test! This bull, Sterling Bond 007, was selected by ST Genetics.

No Doubt

**Miss Blackcap Ellston J2**  
Dam of No Doubt  
Pictured at 11 years of age

★ When we sold J2, we retained one flush from this female, and had five live calves born in 2014. Only one was a bull, No Doubt. He and his four flush sisters averaged a 108 WR in proper contemporary groups, all with registered recipients. The 4 sisters had an average 774 pound weaning weight. The top one at 850 pounds, N58, was the #1 weaning weight female of the entire heifer crop! N58's 2021 son is a contender for the lead-off bull position in our February 1, 2022 sale. Three of No Doubt's sisters went on to earn Pathfinder status!

★ Owned with Alta Genetics, Rocky View County, AB and Spruce Mountain Ranch, Larkspur, CO.

- ★ Know How is a super stout, thick, moderate sized, great footed, big testicle bull that has the look of his father. From one of the longest standing, most successful cow families in the 94-year history of Hoover Angus, this bull brings a special pedigree to the breed.
- ★ Hoover Perception, the \$30,000 top-selling bull in our 2021 auction, was sired by Know How. Five Know How sons averaged \$11,200 to be our top-selling sire group of five or more bulls last year.
- ★ The Know How calves are sharp-looking calves with a strong hip, powerful hind leg, sound structure, and excellent thickness. They have the power and growth one would expect from a No Doubt line.
- ★ Know How weaned at 823 pounds, WR 108, YW 1354 lbs., YR 102, and scanned a 15.7" ribeye to ratio 104.
- ★ Pathfinder dam L265 is better known as "Stormy," as she is the only daughter of SydGen Storm. She is a low birth weight cow

- that records 7-98 BWR and 7-101 WR. She is still going strong at 9 years of age! Stormy and the 6 generations of cows behind her have superior udders. If you need to improve udder attachment, shape, and teat size, consider Know How.
- ★ Stormy has one Pathfinder daughter that works in the herd with 3-106 wean ratio. A nice daughter of Stormy as well as a high performing son will sell in our February 1, 2022 sale.
  - ★ Stormy is an 11th generation Blackcap Empress Ellston female to be bred, born, and raised at Hoover Angus. This has been a tremendously successful cow family through many generations. Fifth generation dam C57 has given rise to a phenomenal cow family. Eighty-six daughter descendants have stemmed from C57, including 17 Pathfinders and 8 donor cows! Four bulls selected for use in the Hoover herd have also stemmed from C57. To say C57 has had an impact on the herd would be an understatement! She has truly helped write the history books at Hoover Angus.
  - ★ Owned with Teixeira Cattle Co., Pismo Beach, CA and Select Sires, Plain City, OH.

- ★ Cowboy Logic – the ultimate choice for heifers! Cowboy Logic calves come light yet vigorous at birth and get right up and start growing. With over 300 progeny through AHIR and nearly 1/3 of them born to first calf heifers, we can be confident in recommending him for heifers.
- ★ We find the Cowboy Logic cattle to have more bone than most calving ease cattle, added length, stoutness, a big hip, and nice

- presence. They are sound in their structure and have solid growth. Foot quality has been exceptional, and we expect these cattle to have excellent longevity.
- ★ Cowboy Logic's first progeny were very well accepted in our 2021 auction, and 10 sons averaged \$8465! We have another large offering of Cowboy Logic sons and daughters in our February 1, 2022 sale. Frey's sold the first Cowboy Logic son to come to auction for \$55,000 to Genex at the Cattlemen's Congress in Oklahoma in 2021.
  - ★ As the 2019 lead-off bull in the Frey carload of bulls in Denver, Cowboy Logic drew lots of attention in the yards! He has style, muscle, power and tremendous performance in a calving ease package. Born at 75 pounds, he had a 781 pound weaning weight, YW 1647 lbs., ADG 5.41 lbs/day, WDA 4.32 lbs/day, IMF 4.61, ribeye 14.1."
  - ★ His dam records a 366 day calving interval and 7-97 BWR, 6-104 WR, 4-113 YR, 6-102 IMF ratio and 6-102 ribeye ratio. Lynn Frey reports this about Cowboy Logic's dam, "She is the kind of cow that we would like to have more of. She covers all the bases and produces individuals that are complete and attractive in their makeup when mated to various bulls." Cowboy Logic's grandam serves as a donor cow and produced Freys Opportunity 148A. Cowboy Logic saw significant usage at Hoover Angus the past two seasons. He was purchased with Select Sires for \$70,000.
  - ★ Australian visitors who viewed Cowboy Logic breeding heifers were impressed with the bull's structure and were especially complimentary of the angle of his pasterns. Cowboy Logic held his condition very well servicing heifers as a yearling bull.
  - ★ Owned with Frey Angus, Granville, ND and Select Sires, Plain City, OH.

- ★ We are pleased to partner with Mogck & Sons on this ultra calving ease bull that boasts a CED and CEM EPD in the best 1-3% of the breed! Better yet, he defies the antagonisms of calving ease and muscle by his Ribeye EPD topping the +1.00 level!
- ★ After seeing the bull and his Maternal Plus enrolled dam, we were ready to use this bull on a significant number of heifers at Hoover Angus! He is correct in his structure, super deep chested, with superior rib shape. Empire offers excellent progeny growth

- potential in slightly smaller frame than typical Hoover sires. He has drawn interest across a wide range of commercial producers.
- ★ Empire was born at 62 pounds out of a first calf heifer, WW 816 lbs., WR 116, YW 1462 lbs., YR 110.
  - ★ After successfully collecting semen at CGS, Empire serviced heifers at Mogck & Sons, and is now home for natural service at Hoover Angus. We welcome visitors to see this bull, as we are proud of his structure, feet, substance, and disposition!
  - ★ Breeder Charles Mogck states, "Empire is one of the most complete, well-balanced, best structured, easy-to-look-at bulls to sell this spring. He offers true muscle shape, with a long, thick muscle pattern, especially for a calving ease bull."
  - ★ Hundreds of units of semen have been sold to commercial producers for heifer projects in South Dakota and Iowa. Empire's first calves will arrive in January, and females will carry Empire's service in our February 1, 2022 sale.
  - ★ Owned with Mogck & Sons Angus, Olivet, SD.

## SEMEN \$30 CERTIFICATES \$35

- ★ 38 Special sons have been crowd favorites in the past four Hoover Angus sales. Exactly one hundred 38 Special sons to come to auction at Hoover Angus have averaged \$8143!
- ★ Females have been equally successful in sales as well as real-world working conditions. As more daughters have come into production, 38 Special's \$Maternal index has risen over 20 points in just one year! Nearly 250 daughters in 59 herds have an average 101 wean ratio on their progeny.
- ★ 38 Special daughters are young to mid-age cows, and we can definitely say 38 Special can improve udders! Daughters have superior udder attachment and a small teat size. Uniformity in the udders of 38 Special daughters is exceptional!
- ★ 38 Special is still the marbling king at Hoover Angus with frame, performance, and eye appeal! He has over 800 progeny with a

whopping 111 IMF ratio and 100 ribeye ratio.

- ★ In 38 Special's first calf crop, a heifer calf was the #1 adjusted weaning weight heifer of the crop at 872 pounds, which is the heaviest adjusted weaning weight of any female in Hoover history! 38 Special calves have added frame and muscle. Many heifers have calved successfully to 38 Special.
- ★ 38 Special was our pick of the bulls in the record 2016 Baldrige Bros. Sale, where 38 Special and his 6 flush brothers averaged \$58,928. 38 Special was the 3rd top-selling bull of the event at \$100,000.
- ★ 38 Special was definitely the power, high performance bull of his flush and a standout with added frame in the Baldrige offering. He is a unique blend of his sire's calving ease and his dam's big frame and power. Viewing the Y69 donor cow prior to purchasing 38 Special, we found her to be everything Jud promised. She is the most influential cow in Baldrige Bros. history, and is having a large impact on the nation's cow herd. As her sons are being used heavily now across the breed, Y69 will be remembered as one of the breed's great ones! She is one of the top income-producing cows in the history of the breed.
- ★ Owned with Alta Genetics, Rocky View County, AB and Baldrige Performance Angus, North Platte, NE.

		3%	5%		25%				20%		25%	

- ★ Special Edition was the 4th top weaning weight bull of his crop at 925 pounds! He is a smooth, good looking bull with a tight sheath and excellent feet. He has an amazing amount of style and a correct skeleton for a bull that pushes the upper limits for growth.

- ★ Special Edition's calves have outstanding growth and eye appeal. Even with a relatively small sampling of calves, a Special Edition daughter was the 4<sup>th</sup> top weaning weight heifer of our spring 2020 crop, and a son was among the top 15! Reports from other states on Special Edition calves send similar reports.
- ★ Pathfinder dam N473 serves as the 6<sup>th</sup> top indexing cow of our entire herd! She has a 361 day calving interval and 5-111 WR. Her four sons have averaged an 856 pound weaning weight! A full brother to Special Edition was the #1 IMF scanning bull of his crop.
- ★ Special Edition is backed by six consecutive generations of high ratioing, highly productive females with superior udder quality.
- ★ High quality semen is available through Hoover Angus.

with her fourth calf around sale time which will put her calving interval right near 365 days.

- ★ S22 had really solid performance: WW 765 lbs., WR 109, YW 1026 lbs., YR 104, IMF 5.57, ratio 122, ribeye 12.3", ratio 111. She was the 10<sup>th</sup> top weaning weight heifer of her crop!
- ★ Maternal grandsire Sizzle has the 4<sup>th</sup> lowest (best) Hair Shed EPD in the breed among 333 sires with a Hair Shed EPD.
- ★ Grandam K11 has earned Pathfinder honors for her good fertility and excellent progeny performance. She records 8-103 WR and a 366 day calving interval. K11 has put three replacement daughters back in the Hoover herd. One daughter sells as a photo feature bred heifer in our February 1<sup>st</sup> sale.
- ★ K11 is a great cow to work with at calving time. We count on her to bring in one of the best calves every year. She serves as the herd's #1 ribeye ratio cow with a whopping 6-119 ribeye ratio. Two of her daughters were the #1 ribeye scanning female of their respective crops! K11 is the #1 Ribeye EPD Hoover-owned female! She and two of her daughters make up 3 of the top 5 Ribeye EPD Hoover females.
- ★ Pathfinder great grandam C355 was a high producing cow whose six progeny to come to auction averaged \$6775 – not bad for a 2004 model cow! Her first daughter earned Pathfinder honors. She produced two full sibs to K11 that were photo features in our past auctions that each topped the \$10,000 mark!
- ★ C355's dam also earned Pathfinder honors.
- ★ Owned with Tanner and Drew Mickey, Taylorville, IL.
- ★ Attraction was the 5<sup>th</sup> top-selling bull in our 2020 auction to repeat customers Tanner and Drew Mickey. We share possession with the Mickey family and have used Attraction to clean-up heifers the past two seasons. We are confident in our genetics, and are proud to use bulls like Attraction back in our program! Females carry his service in our February 1, 2022 auction.
- ★ Attraction is a calving ease Entice son that still produces high growth. He has good body and capacity, is wide based and is super slick haired to thrive on fescue. Typical of Entice progeny, he has a big scrotal and a gentle disposition.
- ★ Dam S22 was a first calf heifer with Attraction. She is slick haired and displays a nice udder. She is a good disposition cow coming

- ★ We are extremely impressed with Chairman progeny! They are growthy cattle with more look and style than most – especially for the ultimate calving ease package he presents! Chairman checks a lot of boxes and is one of the most balanced, complete bulls in the Hoover line-up. Five Chairman sons averaged \$8300 in our 2021 auction, and a much larger offering will sell in our February 1, 2022 sale.
- ★ We love our Chairman daughters, as they are deep, broody, model Angus females with nice udders. His daughters have an average 101 wean ratio on their progeny!
- ★ Chairman is a deep bodied, massive type bull selected for \$55,000 from the 2017 Baldrige Performance Angus sale. Chairman was definitely a favorite of Jud's in their sale, as he earned a painted picture in the Taft Building. Chairman was the #1 yearling weight bull of the auction at 1442 pounds, YR 115 after posting an 842

pound weaning weight, WR 113! He is a loose-skinned, stylish bull whose progeny are generally a tick more moderate frame than most Hoover cattle.

- ★ Chairman was the first natural calf of the outstanding B061 cow. She is a full sister to the \$90,000 valued Baldrige Beast Mode at Genex. She records 4-106 WR, 56-102 IMF ratio and 56-104 ribeye ratio. Some of her promising sons include Baldrige Pappy and Baldrige Done Deal (both by No Doubt), Baldrige Movin On G780, and Baldrige Gibson G859. She is the highest grossing daughter of the great Y69 cow. Y69 is the dam of 38 Special and the \$580,000 Baldrige Colonel. Y69 has become one of the most influential cows of the entire Angus breed.
- ★ Sire Conquest has been used successfully on over 1500 head of commercial first calf heifers in South Dakota. Conquest is long, thick, and sound with extra muscle and capacity.
- ★ Owned with Alta Genetics, Rocky View County, AB and Baldrige Performance Angus, North Platte, NE.

says the best thing about Predictor is his gentle disposition. We are excited to continue the tradition of disposition excellence at Hoover Angus!

- ★ Donor dam C023 is an excellent uddered, heavy muscled female with added frame size. She is a granddaughter of Hoover Dam, which will be the perfect "spot" in the pedigree to have this strong maternal, feet improving sire! Grandam was a \$55,000 donor female and a full sister to B/R New Day 454.
- ★ Sire Forecaster is the \$100,000 sire featured in the Alta Genetics lineup, with nice sire groups at Baldrige Bros. and Diamond J Angus. Jud Baldrige reports that Forecaster's dam is an excellent female right on the heels of their breed-leading Y69 cow. Three full sisters to Forecaster have been flushed at Baldriges, and they are attractive, good udder quality females. Forecaster is the sire of the \$250,000 Baldrige Versatile.
- ★ Owned with Reverse Rocking R Ranch, Maxwell, NM.

- ★ Raml Athlete is THE BEST footed bull we traveled to see in 2021! His toe shape is ideal and his heel depth exceptional. We purchased him to continue our quest to improve foot quality,

structure, longevity and disposition excellence! Grant Raml was not joking when he said this bull is laid back – he definitely matches his +28 Docility EPD!

- ★ Athlete weaned at 881 pounds, WR 121, YW 1415 lbs., YR 112, and had an adjusted 39.36 cm scrotal. His dam posts a whopping 3-118 WR and 3-110 YR! Two of the superior cows in his pedigree are also found in the pedigree of our second bull purchase at Raml's, Raml Optics.
- ★ Athlete is a soft sided, wide topped bull and certainly not frail made like a large percentage of double-digit calving ease bulls. He has a small head to promote calving ease, yet has gas in the tank to sire high growth calves!
- ★ Athlete's sire, Raml Rugby 7103, sold for \$28,000 in the 2018 Raml sale to ABS. Rugby produced the lead-off bulls in the 2021 Raml sale, where 10 sons averaged \$8525!
- ★ Athlete is at Hoover Angus servicing cows – we welcome you to visit Hoover Angus to view Athlete and any other herd sires we have on the farm. Our doors are always open for our customers to evaluate the cattle in person before making purchasing decisions of genetics.
- ★ Owned with Raml Cattle, Goodwin, SD.

- ★ N29 originally sold through the 2015 Hoover sale for \$23,000 to Steve Borns as the second top-selling bull. In Steve's dispersal sale in 2017, N29 was purchased by Select Sires for \$39,000!
- ★ N29's progeny are true low birth weight cattle backed by the most successful cow family in the history of Hoover Angus!
- ★ N29 is a full brother to the Erica of Ellston L5 cow that is the dam of Hoover Top Notch P409 (Select Sires), Hoover Cut Above P427 (Accelerated Genetics), and Hoover Ambition (Alta Genetics).

- ★ Pathfinder donor dam G366 is the best cow that has ever been bred, born, and raised here in our 94 year history!
- ★ G366 maintained a perfect 365 day calving interval on her 8 natural progeny, prior to pulling her out of production to flush for one year. At 12 years of age, G366's udder was still phenomenal! She recorded 9-98 BWR, 9-107 WR, and 7-107 YR.
- ★ Currently, a daughter and granddaughter of G366 rank as the 2<sup>nd</sup> and 3<sup>rd</sup> top indexing cows of the Hoover herd, respectively, and two other daughters rank in the top 15 indexing cows of the herd. Three daughters of G366 have earned the Pathfinder designation, and at least 14 of her daughter descendants have served as donors.
- ★ G366 daughters produced the two lead-off bred heifers in our 2018 auction, selling for \$48,000 and \$22,000! These 2 females record 3-126 WR and 3-114 WR for their new owners!
- ★ G366 has brought a total of 10 featured progeny to auction including one that was the #1 adjusted weaning weight bull of his crop, and her 16 progeny have averaged over \$12,000. Registered progeny sales plus embryo sales have totaled over \$200,000 to make her one of the top income producing cows in our history!
- ★ G366 is an extremely gentle cow, and this shines through in her progeny. Her Docility EPD is well above the best 1% of the breed.
- ★ G366's great grandam V65 is the grandam of Hoover Dam. This Erica cow family has put 9 bulls in 6 different AI studs.
- ★ Owned with Select Sires, Plain City, OH and Borns Angus, Hazel, SD.

★ In today's world of unprecedented changes and challenges, one thing has seemed consistent: Hoover Dam daughters standing the test of time in a variety of environments. Hoover Dam daughters are arguably optimum in many areas important to the commercial

cattleman making a living from cattle. Hoover Dam has truly established a brand name reputation for calving ease, muscle, docility, and maternal strength. Daughters are highly productive, functional, impeccable uddered females

★ Hoover Dam is the all-time semen sales bull ever at ORigen, and at 11 ½ years of age was laid to rest at ORigen. He sold nearly one quarter million units of semen and his influence has been felt on at least 4 continents. Semen and certificate sales grossed over \$5.3 million. Although there are no official public records with which to compare, Dick Beck, Vice President of Sales and Marketing at ORigen, says "Hoover Dam is the only sire in history owned exclusively by Angus breeders to have ever reached or surpassed that sales total!"

• Investor had an ideal 78 pound birth weight out of a first calf heifer, WW 745 lbs., WR 106, YW 1388 lbs., YR 102. Investor ran clean-up in one of our best pastures of cows this summer and is currently

working in our second largest fall group. He is a stout made bull that does a lot of things right with a 6 frame.

- Investor's greatest attribute is his dam and cow family. The 777 cow is a pretty, feminine female that is just the right size. She has a square and tidy udder with a small teat size. Her feet are nearly ideal! High Point's Brian Oswald has high praise for the three generations of cows stacked behind Investor for their calm demeanor and mothering ability.
- Investor's grandam records 7-100 WR and 7-106 YR. His great grandam was one of the best cows ever in production at High Point, raising 14 calves with an average 107 WR.
- Owned with High Point Genetics, Osceola, IA.

★ Sizzle is a slick haired, deep bodied, level topped bull with excellent scrotal development. He is a super long bodied bull to pack in extra

pounds, which he has done. He continually stays very fleshy now as a mature bull.

- ★ In the most recent Hair Shed Research Report published by the AAA, Sizzle has the 4<sup>th</sup> lowest (best) Hair Shed EPD in the breed among 333 sires with a Hair Shed EPD. His progeny are easily identifiable for their slick hair coats.
- ★ Sizzle's daughters in production are neat uddered and super slick haired.
- ★ Sizzle's dam that we viewed the morning of the SydGen sale records 5-106 WR and 4-107 YR.
- ★ Owned with Sydenstricker Genetics, Mexico, MO and Clifford Scott, Malvern, IA.

★ Optics = Optimal!

★ In our quest to find the most "optimal" bull to be sold in the spring of 2021, Optics met the mark! Although he is not *extreme* in any one area, we feel he is *optimal* in nearly every area! His EPD package instantly drew our attention, his video further sparked our interest, and

★ Where can a cattleman go and view three consecutive generations of cows behind a bull? With Optics, we saw his dam, grandam, and great grandam, and were impressed with each generation. His grandam has earned Pathfinder honors, and his 2<sup>nd</sup>, 3<sup>rd</sup>, and 4<sup>th</sup> generation dams have all served as donors for Raml Cattle. His great grandam is still going strong at 10 years of age, and she produced the \$28,000 Raml Rugby 7103 owned by ABS. She is a beautiful uddered, excellent footed, smooth walking female. We could tell she has passed along superior foot quality to each successive generation of females.

★ Hoover Angus purchased Optics for \$29,000, then partnered up with the runner-up bidders after the sale, Panther Creek Ranch and Cattle Visions, to make the owner's slate complete along with the Raml family.

★ Optics weaned at 812 pounds, WR 112, YW 1420 lbs., YR 113, and had an adjusted 41 cm scrotal. He is wide based, thick, smooth shouldered, and offers the frame and stretch desired by Hoover Angus customers. His pedigree is a complete outcross to our program, and the vast majority of current Angus pedigrees.

★ Sire Rangefinder was the \$29,000 selection of ABS in the 2018 Raml sale. Three impressive Rangefinder sons in the 2021 Raml sale averaged \$15,500.

★ After collecting 726 units of semen in just 4 collections at Cattle Visions, he came to Hoover Angus to naturally service females, where he held his condition very well. Optics saw significant usage at Hoover Angus in 2021!

★ Owned with: Cattle Visions, Clark, MO; Panther Creek Ranch, Bowen, IL; and Raml Cattle, Goodwin, SD.
